HAIR SAMPLE COLLECTION

Select a Small Section

Choose a small, representative section of your hair for sampling. This can be a snippet measuring approximately 2 inches in length. Send enough hair so that we can see the color of the hair.

Clean Hair

Ensure that your hair is clean and free from any styling products. This provides the most accurate representation of your natural hair.

Cutting Technique

Use scissors to cut the hair sample. Cut the hair as close to the scalp as possible for the best results.

PACKAGING THE HAIR SAMPLE

Place in a Ziploc Bag

Insert the cut hair sample into a small Ziploc bag. Seal the bag securely to prevent any hair from falling out during transit.

Label the Bag

Clearly label the Ziplock bag with your full name and the date of collection.

COMPLETING THE SUBMISSION FORM

Fill Out the Form: Complete the submission form on our website, providing accurate information about your hair type, color, and any specific preferences or concerns.

Upload Pictures: Use the form to upload clear pictures of your hair from different angles. This assists our team in understanding your hair's characteristics.
