ZENDELIVERY

HELLO! WE'RE ZENDELIVERY

Food delivery is at an all-time high, and so are the fees customers and restaurants are forced to pay. Not to mention the low wages & tips delivery drivers experience. We decided it was time to take a stance against the online food ordering and delivery industry.

We're here to disrupt an industry that accounts for \$82 billion in annual sales with a flat fee of \$2 for restaurants, better pay for drivers, and lower fees for customers!
