

Daily Nutrition to Live Your Best Life

The World's Most Scientifically-Validated
Micronutrient Supplements

Made To Protect. Built to Sustain. Everyday. For Life.

MICRO DAILY WAS ORIGINALLY FORMULATED FOR US TROOPS

Our troops must meet the highest standards of health and wellness to protect our country.

Not just to protect – but also to sustain our troops – the U.S. Military asked Dr. Kedar Prasad, Ph.D. – *the world's foremost expert on micronutrition and supplementation* – to develop a supplement that could provide a singular daily source of nutritional defense and nourishment for U.S. Troops.

Micro Daily (originally called Military Micronutrient Formulation) is the result of decades of research by Dr. Prasad and tens of millions of dollars of funding. This unprecedented investment validated a micronutrient supplement, now called Micro Daily, that can nourish and protect U.S. Troops in a way that no other supplement can.

Now that same formula can be safely delivered to your front door so that you can also experience the benefits of Micro Daily.

EVERY DAY. FOR THE REST OF YOUR LIFE.

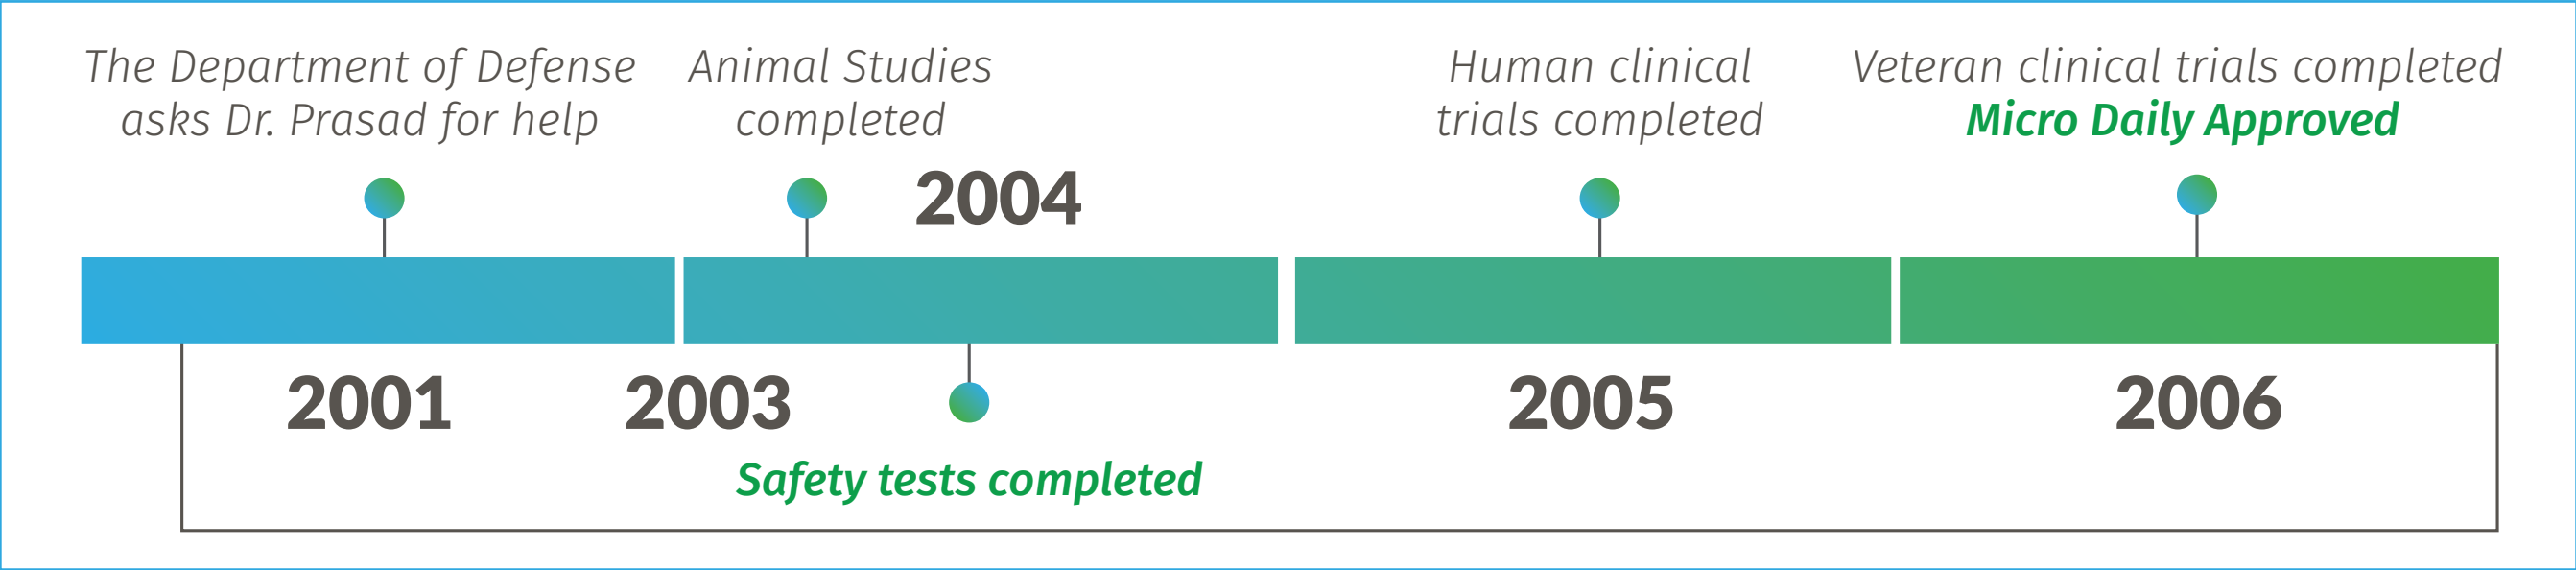

Dedicated Diligence. Refined Research.
Real Results.

PERFECTING THE MICRO DAILY FORMULA

Dr. Prasad conducted 17 lectures to military scientists and worked with Congress for two years to gain approval for the funding necessary to complete the scientific validation process for Micro Daily. Six years and 14 clinical studies later, Dr. Prasad successfully demonstrated that Micro Daily is indeed the world’s most scientifically validated supplement.

MICRO DAILY SCIENTIFIC VALIDATION HIGHLIGHTS

- 6 years of testing
- 9 months of safety testing with the U.S. Military Internal Review Board
- 14 total clinical studies — including 7 human trials
- \$12.5 million funding from the U.S. Congress
- Over \$24 million total invested to develop and validate Micro Daily
- 7 U.S. Patents awarded to Dr. Kedar Prasad, Ph.D.

From The Military To The Masses.

DR. PRASAD'S MISSION TO BLESS THE MASSES WITH OPTIMAL HEALTH.

Dr. Prasad's mission has always been to give as many people access to his Micro Daily formula as possible. For many years, Micro Daily (named at the time Military Micronutrient Formulation) was only available to the U.S. Military.

A chance encounter with businessman and investor David Nemelka began a multi-year journey that ultimately led to a partnership between David and Dr. Prasad.

Seeing how Micro Daily positively impacted the lives of thousands, David developed a conviction of Micro Daily's efficacy that drove an urgency to put Dr. Prasad's formula in the hands of all that need it.

Making Dr. Prasad's mission his own David partnered with Dr. Prasad to bring Engage to the world and make Micro Daily available to the masses.

What's Inside

Vitamin A – Protects cells from free radicals. Promotes healthy skin, a strong immune system and eye health.

Vitamin C – Enhances the production of anti-viral agent interferon gamma and strengthens the immune system. Enhances the formation of collagen to maintain skin elasticity.

Vitamin E Succinate – Activates Nrf2, crosses the blood brain barrier, nourishes & protects the brain, protects against excessive glutamate induced cell death throughout the body.

Vitamin B-3 – Provides substrate to mitochondria for energy, and enhances production of new mitochondria.

Vitamin B-12 – Prevents excessive release of glutamate. Essential in red blood cell function, cell metabolism, nerve function and DNA production.

CoQ10 – Activates Nrf2, improves energy, provides mitochondria substrate for generation of energy. Boosts the immune system, neutralizes free radicals, supports cell growth, and prevents release of excessive glutamate.

Alpha Lipoic Acid – Activates Nrf2. One of the most powerful antioxidants and natural distributor of glutathione. Destroys toxins and is present in every cell, where it assists in energy production.

N-Acetyl-L-Cysteine (NAC) – Activates Nrf2. Used by the body to build antioxidants and replenish the most powerful antioxidant in your body – glutathione. Helps with respiratory conditions and brain health.

Beta-Carotene – Critical antioxidant that prevents cellular and DNA damage.

Twice Daily (Morning/Evening)

PROPER DOSING IS KEY FOR OPTIMAL RESULTS

In order to achieve optimal results and ensure that each ingredient is used by the body exactly as it should be, it is critical to follow proper dosing instructions for Dr. Prasad's products.

TWICE DAILY DOSING

Dr. Prasad's research revealed that two times per day dosing maximizes the effectiveness of micronutrients and supplementation. Research shows that dosing once a day may cause high fluctuations in antioxidant levels in your body that may markedly alter gene expression and increase the chance of cell mutation which can be the source of disease and illness. Twice daily supplementation keeps your body fed all day long and can decrease the risk of altered gene expression and cell mutation.

TAKE WITH FOOD

Some micronutrients and CBD are fat soluble and require food for maximum absorption and efficacy. By taking micronutrients with food you are maximizing their absorption and effectiveness for your health.

CQF is What Sets Us Apart

WHAT IS CQF? WHY IS IT IMPORTANT TO YOUR HEALTH?

All of Dr. Prasad's products have his name and his CQF seal on them to certify that you are taking the finest, most scientifically validated supplements in the world.

C

The right **Combination** of ingredients.

Q

The right **Quantity** of ingredients.

F

The right **Form** of ingredients.

How CQF Affects You

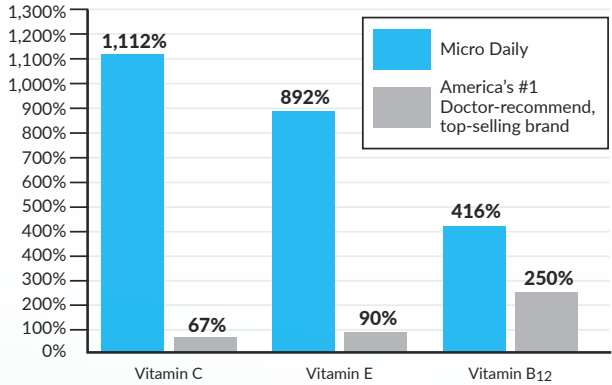

COMBINATION

Dr. Prasad conducted the research that proved micronutrients taken in combination are much more effective than when taken individually. His research also demonstrated that there are certain combinations of ingredients that should never be together.

NEVER COMBINE VITAMIN C WITH COPPER, MANGANESE OR IRON Dr. Prasad's products do not combine Vitamin C with Copper, Manganese or Iron in the same capsule. Scientists have known for many years that combining these ingredients causes a chemical reaction that creates free radicals, which are the enemies of our health. If you need to take iron, take it two hours before or after taking Micro Daily.

QUANTITY

Quantity isn't what the government recommends, RDA's (Recommended Daily Allowances) are set simply to meet "adequate" standards of nutrition to avoid a deficiency. RDA's are NOT what your body actually needs to be optimally healthy and thrive! Some essential vitamins that other supplements fall short on are shown in the graph on the right.

FORM

TWO FORMS OF VITAMIN E

Dr. Prasad has both Vitamin E succinate, which rapidly crosses the blood brain barrier to neutralize free radicals in your brain, and Vitamin E acetate, which rapidly converts to alpha-tocopherol which boosts your immune system.

The Causes of Bad Health

OXIDATIVE STRESS AND INFLAMMATION, CREATED BY FREE RADICALS IN OUR BODIES, ATTACK OUR CELLS AND CAUSE THEM TO FUNCTION POORLY, MUTATE OR EVEN DIE.

What causes free radicals in our bodies?

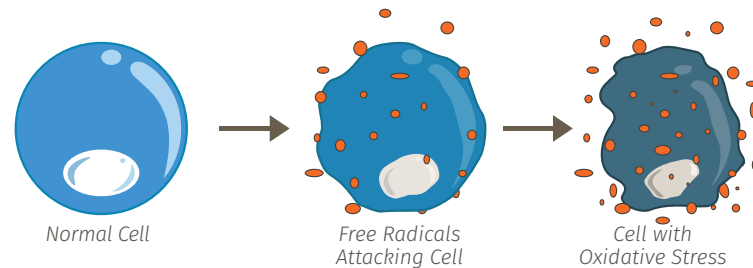

Poor diet, a high stress lifestyle, a toxic environment including pollution, EMF radiation, poor air and poor water quality generates free radicals that attack our body at the cellular level.

What are the consequences of free radicals attacking our cells?

Increased Oxidative Stress – increases chronic inflammation.

Chronic Inflammation – the source of almost all chronic illnesses.

Excessive Releases of Glutamate – kills nerve cells by allowing an excessive influx of calcium which is toxic, sodium which causes edema (swelling), and potassium which increases lactic acid.

What are the effects on our health of free radicals, increased oxidative stress, chronic inflammation and excessive releases of glutamate?

Pain, obesity, poor sleep, lack of DNA integrity, accelerated aging, lack of energy, anxiety and stress, and most chronic illnesses are ultimately the result of unchecked free radicals attacking our cells.

How do micronutrients fight free radicals, oxidative stress, chronic inflammation and releases of excessive glutamate?

Free Radicals – Free radicals are neutralized by anti-oxidants and the right micronutrient combination, which means less oxidative stress and healthier cells.

Chronic Inflammation – Less oxidative stress means less chronic inflammation. Excessive Glutamate – Vitamin E protects against glutamate induced cell death. CoQ10 and vitamin B-12 work to lower excessive glutamate levels.

5G is up to 700 times more powerful than original cell-phone technology

DR. PRASAD'S LATEST RESEARCH DEMONSTRATES WHY EMF RADIATION IS HARMFUL TO OUR HEALTH

Hundreds of scientific studies have shown the potentially harmful effects of 5G EMF Radiation on human health. EMF Radiation increases the production of excessive amounts of free radicals (oxidative stress) in the body. It also increases the production of pro-inflammation cytokines (inflammation). These cellular defects contribute to the increased risk of developing neurological and cellular defects that can lead to most health issues.

POTENTIAL HEALTH RISKS OF EXCESSIVE EXPOSURE TO EMF RADIATION

Neurological: Acute neurological abnormalities:

- **Hypersensitivity syndromes:** Headaches, dizziness, balance problems, sleep disturbances, depression, emotional problems, fatigue, irritable behavior, lack of focus, and confusion.
- **Acute non-neurological abnormalities:** Alters heart and brain function. DNA damage, increased sperm/testicular damage.
- **Late neurological abnormalities:** Cognitive dysfunction, tinnitus, hyperacusis (increased sensitivity to noise), and attention deficits.
- **Late non-neurological abnormalities:** Brain cancer (glioma, acoustic neuroma, and meningioma), and breast cancer.

MICRO DAILY EMF IS A FORMULA SUPPORTED BY 14 CLINICAL STUDIES, INCLUDING:

- Studies on CT Scans and other high intensity levels of radiation.
- Radiation & oxidative stress studies conducted by Dr. Prasad with NASA and the U.S. Military.
- Dr. Prasad's patent on Micronutrition and Radiation.

THE IMPORTANCE OF COLLAGEN & HYALURONIC ACID SUPPLEMENTATION

As we age, our production of collagen, elastin, and levels of hyaluronic acid decrease while damage from free radicals and enzymes that age our skin and organs increase. CLINICAL STUDIES WITH HYALURONIC ACID ALONE SHOWED FOLLOWING BENEFITS IN THE SKIN:

- Improved skin hydration
- Improved skin elasticity
- Reduced skin wrinkles
- Reduced skin roughness

Collagen Daily combines premium Collagen Peptides with Enzyme Inhibitors plus Hyaluronic Acid to deliver results like no other collagen product. Slow down aging by neutralizing damaging enzymes and boosting your collagen levels. This patent pending formula with enzyme inhibitors super charges the anti-aging benefits that you and others will see every day.

Dr. Prasad's research has uncovered natural enzyme inhibitors that can neutralize the "bad enzymes" such as collagenase, hyaluronidase, matrix metalloproteinases, elastase, and free radicals. Collagen Daily is the only supplement available with enzyme inhibitors to further increase collagen production.

COLLAGEN DAILY PROMOTES:

- Replenishment of the body's collagen

The Amazing Benefits of CBD

ACTIVATES THE ENDOCANNABINOID SYSTEM

By activating the endocannabinoid system CBD is uniquely able to promote pain relief, anxiety and stress relief, and optimal sleep.

ENDOCANNABINOID SYSTEM - CBD ACTIVATES THIS SYSTEM

Humans have an Endocannabinoid System (ECS) designed to fight neurological inflammation and protect our body. The purpose of the ECS is to maintain a healthy biological balance within our body's major systems.

However, our ECS does not always function at optimal levels, especially as we age. This can lead to difficulty regulating a healthy mood, poor sleep, increased inflammation and pain, as well as an overall reduction in immune health.

This is where CBD steps in, providing our bodies the support we need by helping our ECS to function more effectively.

Experience the Amazing Benefits of CBD

Why Does Your Child Need a Micronutrient Supplement?

UNHEALTHY DIETS

Providing children a healthy diet in our world of fast food and junk food is hard to do. Proper Micronutrient supplementation gives your child the nutrient boost they need to promote their optimal health.

CURRENT KIDS' VITAMINS FALL FAR SHORT IN MICRONUTRIENTS
